### What is a Standalone Grumpy Sunshine Romance?

Standalone grumpy sunshine romances are a popular subgenre of romance that features a brooding, cynical hero paired with a cheerful and optimistic heroine. These stories typically follow the "grumpy meets sunshine" trope, where the hero's initial grumpiness gradually melts away as he falls for the heroine's infectious joy and unwavering kindness.

### Tropes of Standalone Grumpy Sunshine Romances

Some of the common tropes found in standalone grumpy sunshine romances include:

- **Grumpy Hero:** The hero is often a tough, brooding, and cynical individual who has a hard time expressing his emotions. He may be a loner, an outcast, or simply a man who has been hurt in the past.
- **Sunshine Heroine:** The heroine is a bright, cheerful, and optimistic woman who can always see the best in people. She is usually the one who helps the hero to open up and find happiness.

- **Enemies to Lovers:** The hero and heroine may initially start out as enemies or rivals, but they eventually fall in love after overcoming their differences.
- **Forced Proximity:** The hero and heroine may be forced to spend time together for work, school, or some other reason. This forced proximity gives them the opportunity to get to know each other and develop feelings.
- **Secret Crush:** The heroine may have a secret crush on the hero, but she doesn't want to admit it to herself or to him.
- **Happily Ever After:** Despite their differences, the hero and heroine eventually find their happily ever after together.
